

Karthikeyan A

Software Engineer • React • JavaScript • TypeScript • Node.js

Chennai, Tamil Nadu, India • +91 95661 61306 • karthi.vmpak@gmail.com • linkedin.com/in/karthikeyan-a

SUMMARY

AWS-certified **Software Engineer** with **3+ years** and a frontend focus, building scalable, enterprise-grade **React / TypeScript** applications for **FinTech** and **SaaS** platforms — **100+ screens**, **200+ REST API integrations**, and **Socket.io** real-time features, with Jest / Vitest test suites and Agile / Scrum delivery. Seeking **Frontend, Full Stack, or Software Engineer** roles across React, JavaScript, and TypeScript; actively building full-stack side projects with **Node.js / Express** and **PostgreSQL**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3 / SCSS, SQL

Frontend: React.js, React Query, Context API, Ant Design, Formik, Axios, Responsive Web Development

Full-Stack (building): Node.js, Express.js, REST APIs, PostgreSQL, MongoDB

Testing & DevOps: Jest, Vitest, React Testing Library, Git, Postman, Azure DevOps, CI/CD, AWS (EC2, S3)

Real-time & Integrations: Socket.io / WebSockets, Firebase, Stripe, JWT / OAuth2, third-party APIs

EXPERIENCE

Rootquotient Technologies

Chennai, India

Software Development Engineer – Intern → Software Development Engineer – I

Aug 2023 – Present

US FinTech Platform — Web Application Engineering

- Built the customer-facing UI for a high-traffic US **money-lending** platform in **React, TypeScript, Formik, Yup** — **202 screens** across 21 modules, **63 components** — integrating **30 REST APIs** from the back-end services.
- Delivered role-based-access screens, **data-visualization dashboards**, and document-management workflows, driving a **+20% lift in user interaction** and **+25% decision-making efficiency**. Contributed to code reviews and **Agile / Scrum** ceremonies as SDE-I.

Workforce & Agency Management SaaS Platform — Web Application Development

- Delivered the web application across a **4-portal** architecture (Staffing, Customer, Agency, Employer) in **React, TypeScript, Ant Design** — **140+ components**, **50+ REST API integrations**, **228+ automated unit tests**.
- Built candidate-management, job-tracking, payroll, and real-time chat interfaces; co-built a shared UI component library on **npm (v1.2.47, 98+ components)** adopted across all portals.

Swim Therapy Platform (Healthcare SaaS) — Frontend Architecture

- Architected the **Admin** and **Patient** portals in **React, TypeScript, Ant Design, React Query** — **170 screens**, **140+ components**, **28+ REST APIs** — with **Socket.io** real-time chat, **Stripe** invoicing & payments, **Firebase** push notifications, and email campaigns, backed by **92 Vitest unit tests**.

Early Contributions — Software Development Intern

- Shipped **React / TypeScript** UI features and reusable components with **Jest / RTL** unit tests under senior-engineer mentorship; early exposure to **Agile / Scrum** ceremonies and code reviews.

PROJECTS

FinBoard — Multi-Tenant SaaS Billing & Expense Dashboard

React, TypeScript, Node.js, Express, PostgreSQL

- Full-stack **SaaS** app with org / team workspaces, subscription plans, invoice generation, and categorized expense tracking; **React + TypeScript** front-end and a **Node.js / Express** REST API secured by **JWT** auth and role-based access.
- Relational **PostgreSQL** schema with per-tenant isolation, aggregation queries, and pagination; deployed on Vercel + Render with architecture and API docs in the repo. [GitHub](#)

CERTIFICATIONS

AWS Certified Solutions Architect – Associate • AWS Certified AI Practitioner

EDUCATION

SRM Valliammai Engineering College

B.E. in Cyber Security — CGPA 8.51

Chennai, India

2020 – 2024
